

# Helpful Facts

## **ABOUT HEAT -SEAL LAMINATING FILMS (2-sided process)**

### **PET (Polyester)**

An extremely durable film with excellent scuff and scratch resistance that will not become brittle with age under normal conditions. Comes in 1.7 mil, 3.0 mil, 5.0 mil, 10.0 mil thicknesses, and is stocked in "wet look" gloss and "eggshell" matte finishes.

These films can be applied leaving an edge seal for total moisture resistance, or can be trimmed to the edge of the sheet (flush cut).
